

Hearing Device Services Codes Crosswalk

This crosswalk is a tool that providers and coders can use to help integrate the new hearing device services codes. These are new Level I Current Procedural Terminology (CPT®) codes that represent services audiologists provide as part of the management of hearing loss with hearing devices. There are not many existing CPT codes that each of these

replace, but there are some existing Level II HCPCS codes that audiologists have been using to try to capture the services they provide. Audiologists often refer to those codes as “V codes.” V codes primarily refer to hearing devices and supplies and some related services. V codes remain available for reporting. Check directly with payers regarding their use of new and existing codes for reporting hearing devices and related services.

Please see the crosswalk below for more information on how to report the new CPT codes.

Service	New CPT Code	Existing CPT Codes
Hearing Aid Candidacy	92628 (30 minutes) +92629 (add'l 15 minutes)	92590 (<i>Delete</i>) Hearing Aid Exam & Selection Monaural 92591 (<i>Delete</i>) Hearing Aid Exam & Selection Binaural V5010 Assessment for Hearing Aid
Hearing Aid Device Selection	92631 (30 minutes) +92632 (add'l 15 minutes)	92590 (<i>Delete</i>) Hearing Aid Exam & Selection Monaural 92591 (<i>Delete</i>) Hearing Aid Exam & Selection Binaural V5010 Assessment for Hearing Aid
Hearing Aid Fitting, Verification and Device Orientation	92634 (60 minutes) +92635 (add'l 15 minutes)	<i>No CPT Service Code</i> V5011 Fitting / Orientation / Checking of Hearing Aid V5110 Dispensing Fee, bilateral V5241 Dispensing Fee, monaural V5160 Dispensing Fee, binaural V5200 Dispensing Fee, Contralateral, monaural V5240 Dispensing Fee, Contralateral, binaural
